Declaration

I declare that I have reviewed the submission for the SWE 3513 Individual Assignment 2 entitled Musanze Harvest Intelligence Service, submitted under my name and registration number.

I take responsibility for understanding the work, checking its accuracy, and ensuring that the source code, generated outputs, report, tests, and demonstration submitted are consistent with the actual project.

I acknowledge that artificial intelligence tools assisted with research, explanation, Python code development or adaptation, debugging, and documentation. Such assistance must be described truthfully in the accompanying AI_USE.md file, consistent with the work actually performed and the course rules.

I understand that the dataset is synthetic and that the resulting predictions are for academic demonstration, not verified agricultural advice. I confirm that I will not present fabricated testing, forged evidence, or another person's work as my own.

By signing below, I confirm that I have read this declaration and that the statements above accurately reflect my contribution and the assistance received.
